Elvis Torregrossa

Summary

I'm a certified Full-Stack Web Developer with a passion for front-end development and user experience.

After working for several years in the fast-paced hospitality industry, where I often used tech to improve processes, I decided to switch career and pursue web development.

I recently completed a one-year software development program focused on HTML5, CSS3, JavaScript, Node JS and React, and I'm now looking for a position to apply my skills in a real-world setting. I'm used to working under pressure and in fast-moving environments and I'm excited to bring that energy and adaptability to a development team.

Experience

Paternity & Study

2024-2025

I took a year to focus on my newborn and use the time to learn new skills. During that time, I earned my Full-Stack Web Developer certification and built my portfolio.

Project work

2017-2023

During this years, I worked on project-based tasks to help restaurants with their digital transformation and to improve their processes.

2022-2023 : Roots wine import and Figo Restaurant

- **Shopify Management:** Managed end-to-end e-commerce operations on the Shopify platform, including store setup, product listings, inventory management.
- **Improved Website UI/UX:** Enhanced website by optimizing design, navigation, and responsiveness to improve user experience
- **Consulting:** Provided 360-degree consulting on staff management and process improvement, focusing on optimizing workflows, team performance, and operational efficiency.

2021-2022: Terra green Michelin Star

- **Marketing & website:** Defined target audiences and developed cultural identity. Enhanced website performance to align with brand goals.
